We all look on with anxious eyes,
When father carves the duck.
And mother almost always sighs
When father carves the duck.
Then all of us prepare to rise,
And hold our bibs before our eyes,
And be prepared for some surprise,
When father carves the duck.

He braces up and grabs a fork
Whene'er he carves a duck,
And won't allow a soul to talk
Until he's carved the duck.
The fork is abbed into the sides,
Across the breast the knife he sides,
While every careful person hides
From flying chips of duck.

The platter's always sure to slip
When father carres the duck,
And how it makes the dishes skip!
Potators fly amuck!
The squash and cabbage lesp in space,
We got some gravy in our face,
And father mutters Hindoo grace
When'er he carres a duck.

We then have learned to walk around. The disting room and pluck. The disting room and pluck. Our share of father's duck. While father growls and blows and jaws, And swears it be knile was full of flaws, And mether jeers at him because. He couldn't carve the dock.

Both the effect and result when Olivo Biassom is used. It acts gently, yet promptly. It is the greatest boon to womankind. Every lady can treat herself and not have to undergo the torture of instruments from physicians. Olivo Blossom positively cures all forms of female weakness, such as Painful Menstruation, Ulceration, Larceration, Barrenness, Leucortheea, Pruritus, Cancer, Ovarian and Fibroid Tumors in their early stages and the long list of innumerable and unmentionable sufferings that afflict the patient. The Olivo Blossom treatment is simple and harmless. The first application often gives permanent relief. Try it, and you will exclaim, as hundreds of others have: "Oh, I feel like a different woman!" One month's treatment sent postpaid to any part of the world on receipt of \$1.00; six months, \$5.00. Olivo Blossom is forsale by all leading druggists. Any druggist who may not have it can order it from the whose heleafer. Do not accept any substitute. Becare of fraudu lent imitations.

The walls were first painted a pure black, and were then afterwards overlaid with a coat of semi-transparent yellow. The effect was the apparent annihilation of the wells and the production of the impression of living in a petrified necturne, an endless London feg, but the small room no longer looked small.

One of the most illusive fairy-like bits of texture for window decoration is a white crete, printed in rainbow colorings, of pale plnks, blace and yellows. You see the fabric from a distance of eight or ten feet, and you instinctively look back of you or above for a stained glass window; for the colorings are of that vagne, gentle character, produced by the reflection of light through colored glass. The colors are of the softest character imaginable, and they run and merge the one into the other.

A hundred years back it was customary for fassy people, old maids particularly, God bless them I to hang little bags at the head of their beds and put away larly, God bless them I to hang little bags at the head of their beds and put away things they might want before morning. We have not seen anything of the kink for years, but now we discover that these bed pockets are being sold in England, although the extent of their use is not stated. They are arranged in fanctiful abapts of brass and hang by cords or ribbons from the head of the bedstead. There is a place for the pocket handkerchief and a place for the watch. Likewise a place for the pocket book and a sign to the burglar, "Step softly and don't disturb the sleeper." The concerns the property of the sign of these devices take the form of niches to hold holy water or saintly figures, for use in Roman Catholic scountries. We have not seen them in America, but once let them be introduced and they certainly would sell. It's a big improvement over poking things under the pillow.

A rich and brilliant effect is obtained in walls intended to be decorated by mixing an equal quantity of marble dust with the lime used in making the plaster. This gives a softness of tint which cannot be obtained with ordinary plaster. In Italy it has long been the custom to give a final coating of marble dust to the walls intended to be treated by the wet process.
